Clubs: 6

Key issues OMTA is currently working on:

- Stopped the purchase of items that should have been paid for with general tax money. For example OMTA stopped the purchase of an \$8000 mower for Perry using ORV money.
- Currently working with legislature to reestablish the SRV board legislatively.
- Currently working to save Perry from being re-mined and effectively destroyed.
- Working towards establishing better working relationships with the Blue Ribbon Coalition.
- Looking at establishing more 4x4 areas

OMTA Accomplishments:

- Returned reciprocity to Ohio Law to allow you to use your registration in other states!
- Removed the age restriction for parents to allow their children to ride with them on public property!
- Stopped a law that would have required a driver's license to ride off road (no riding under 16 years of age)!
- Stopped a law to allow confiscation for first time trespass!
- Established a board of off road enthusiasts for the State Recreational Vehicle Fund (The SRV Fund is where your registration fee goes)!
- Developed sample leases for landowners and enthusiasts!
- Worked with legislators to remove liability from land owners who allow motorized recreation!
